(54) Title: ELECTRONIC MODULE AND METHOD FOR THE PRODUCTION THEREOF

(54) Bezeichnung: ELEKTRONISCHES MODUL UND VERFAHREN ZUR HERSTELLUNG DESSELBEN

(57) Abstract: The invention relates to an electronic module (25) and to a method for the production thereof. The electronic module (25) has several components (1-6) arranged on a wiring block (9). The wiring block (9) has several outer sides (11-14), the volume thereof having lines (15) connecting to one another the contact terminal surfaces (10) on the outer sides (11-14). The contact terminal surfaces (10) are electrically connected to the terminals (7) of the components (1-6).
